

General conditions for Cooperation Projects

Which Partners do we look for?

- We welcome corporate partners from startups to large corporations, social organizations, or research institutions.
- Partners willing to provide feedback to the students during the project.

Which projects are suitable?

- The starting point of the project should be an open problem statement.
- The problem statement should offer sufficient potential for industrial design students.

Project scope

- During the diploma project, a product concept and a meaningful visualisation and / or physical model will be developed.
- The students will be supervised by experienced mentors.
- The project execution and supervision will be charged with a compensation of CHF 5000.-.

Schedule

- We are accepting project ideas until mid november 2025. If you have any questions do not hesitate to contact us.
- The project start is scheduled for end of February 2026, with a project duration of 3 months.
- Before the project begins, the transfer of usage rights will be defined in a work contract.
- Following the end of the project period in early June 2026, results and prototypes will be publicly exhibited at ZHdK.
